Note:

1. **FLDs on Groundnut:** Farmers have been selected and inputs have been procured but FLDs on groundnut (INM) and *Trichoderma* cannot be conducted due to drought condition in Porbandar district. Only 25 mm rainfall has been received so far, so crop cannot be sown. As ground water has been depleted so pre monsoon sowing of groundnut has also been failed.
2. **FLDs on Castor:** Farmers have been selected for castor (varietal) FLDs but rainfall has not been received so far and ground water has also been depleted so FLDs cannot be conducted so far.
3. **FLDs on Sorghum:** Farmers have been selected for sorghum (varietal) FLDs but rainfall has not been received so far and ground water has also been depleted so FLDs cannot be conducted so far.
